

St. Anne FertilityCare™ Center
Welcome Letter

Updated: 02/13/2018

Dear Couple,

Thank you for your interest in **FertilityCare™ Services**. I am very excited that you have decided to learn more about **The Creighton Model FertilityCare™ System!**

The **Creighton Model FertilityCare™ System** provides in depth information about reproductive health focusing on the biological markers that allow women to know when they are fertile, and when they are infertile. By observing, interpreting, and tracking these signs the couple can use this information to either plan or avoid a pregnancy with a very high degree of accuracy. Monitoring these signs also provides valuable information in diagnosing and treating infertility, repeated miscarriages, ovarian cysts, PMS, and a variety of other reproductive health issues. Charting with the **Creighton Model FertilityCare™ System** will also allow you to access the science of **NaProTechnology™** when visiting a trained Medical Consultant. **NaProTechnology™** is the new research based reproductive science behind the **Creighton Model FertilityCare™ System**. More information can be found online by visiting <https://www.creightonmodel.com/> or <http://fertilitycare.org/>

The first step to learning the system is an Introductory Session which is a standardized presentation describing the basics of the system, how to observe the signs of fertility and how to track them. The system is taught in a standardized manner over the course of one calendar year. The eight follow-up sessions progress as follows: the first four follow-up sessions are two weeks apart followed by the fifth session one month later, and the remaining sixth through eighth sessions are three months apart. After the Introductory Session, which takes place in a group, your Follow-Up Sessions are individual appointments designed to meet the your individual needs.

The Introductory Session, and your subsequent Follow-Up Sessions, are to be completed in person. If you decide to move forward please contact me for a schedule of the monthly Introductory Session days and times. I have included an itemized price list so you are aware of the cost of services and materials. Payment is due at the time you receive your materials (at the end of the initial Introductory Session).

If you have any questions please feel free to contact me at (813) 352-4404 or via email at StAnneFertilityCareCenter@gmail.com

I look forward to hearing from you and scheduling your first appointment.

In Good Health,
Amylynn Smith, CFCP
Certified **FertilityCare™** Practitioner
